**Abstract**

---

The watch/clock has normal time indication and means (5) for switching on an audio cassette reader. Also including a prayer cycle (6), calculator and counter (7) for counting backwards for a 10 minute period at the time of each prayer and giving a sound at the end of each period. The prayer cycle calculator (6) is controlled by an algorithm based on curves shown in Figure 1. The watch/clock is controlled by buttons (2,3)
